I AM NOT WOOD
I AM NOT WPC

Win Star plastic lumber is a high-quality, excellent wood-looking new outdoor product, which is an upgraded product of lumber and WPC. It is not using wood, recyclable, environmental friendly.

Plastic lumber has perfect waterproof property, free maintenance and longer life, which are very important for outdoor applications. Customized any sizes and colors, always like new in service period.

Therefore, in North America, plastic lumber has replaced WPC gradually in outdoor decking, fencing, street and garden furniture, and many other fields. It has also obtained good reputation and customer's trust.
